

Keys to SOA Implementation

Essentials of SOA Implementation: A Complete Guide

The Ritz-Carlton – Kuala Lumpur
May 26 & 27, 2008

Course Facilitator:

Cristian Sturek

Founder & Principal SOA Architect

XWeb Services Inc., USA

Cristian Sturek has over 12 years of Enterprise Architecture experience primarily in Financial Services, Health Care & E-Commerce fields. He has many notable clients including a Fortune 200 company in the United States.

"Take time to deliberate; but when the time for action arrives, stop thinking and go in." ~Andrew Jackson~

SOA has been of much hype for sometime now. The time has come for the hype to become a reality; for us to stop deliberating and get into action. SOA has helped many organisations get ahead by moving the focus from merely running the business to maximising the performance of their business.

This SOA Training is tailored to give you **exactly what you need to implement SOA** in your organisation. If you do not want to be left behind in the fast paced technology environment, then you need to attend this workshop.

What this workshop OFFERS:

Advanced implementation techniques

Adopt effective methodologies and strategies to ensure seamless implementation; deal with the challenges and overcome the problems faced in deploying SOA while getting the best from legacy system to avoid revenue exploitation.

Insights into SOA Governance

Understand how governance issues affect your organisation and reap the importance of SOA Governance to ensure business sustainability.

Walk through real world implementation and successful case studies

Gain competitive advantage by analysing current practices and recognise the global competition in the industry.

Keeping up to date with latest tools and technologies

Discover strategies to use the components and tools in SOA effectively; understand the related technologies and available solutions in the market.

Hands-on and highly interactive sessions

Experience hands-on configuration of the new architecture; gain and share knowledge through interactive sessions.

Special Features:

◆ **Exclusive hands on sessions**

Participants would get an opportunity to plan, design, build and conduct a virtual deployment

◆ **International course trainer**

Presenting an expert in SOA with hands-on experience in deploying SOA

◆ **Real world implementation and best practices**

Highlighting case studies of successful SOA deployments especially from the financial services industry

REGISTER NOW!

Limited to 35 seats only.
